7000mm x 7000mm

8000mm x 8000mm

Product Overview:

The ORION™ Conic enables large areas to be covered with minimal columns meaning you have better scope for maximum usage. The low perimeter gives you good all day cover, and the high centre point creates the outdoor feel without compromising your weather protection.

The high centre peak of the ORION™ Conic structure provides a striking aesthetic feature, creating a unique ambience unmatched by any other structure.

Product Options:

- › Available in single, double, triple or multiple configurations.
- › Large fabric colour range.
- › Central or perimeter support columns.
- › Straight-framed or curved unsupported perimeter edges.
