Material Options

Melamine Faced Chipboard (MFC) is ideal for low to medium traffic, dry areas. Panels are manufactured from 18mm* moisture resistant melamine faced chipboard with 1mm matching pvc lipping.

High Pressure Laminate (HPL) is suitable for dry areas with higher use. Panels are faced both sides with high pressure laminate bonded onto moisture resistant chipboard with 1mm matching pvc lipping. Finished panel thickness 18mm.*

Solid Grade Laminate (SGL) with polished black radiused edges is water resistant and ideal for high use and wet areas. Finished panel thickness 13mm.*
