

## CLEMENT REFUSE STORE

Customisable, Durable, and Secure Waste

A durable, secure, and fully customisable waste management solution, the Clements Refuse Store has been designed for commercial and residential developments across London and the UK. Manufactured in Britain and built to withstand daily use, these bin enclosures provide a clean, organised way to store and manage waste and recycling. Perfect for architects, contractors, and facilities managers, the Clements Refuse Store is a specification-ready solution that integrates seamlessly into modern developments. Whether you need to accommodate small residential bins or large 1100L Euro bins, we can deliver a tailored product to suit your site. Managing waste effectively is essential for any development. The Clements Refuse Store not only keeps communal areas tidy but also provides a secure and vandal-resistant solution that architects and developers can confidently specify.

- › **Bin Capacity:** Fits 140L up to 1100L Euro bins
- › **Construction:** Hot-dip galvanised steel frame with optional powder coating
- › **Cladding Options:** Choose from high-security mesh, PPC-coated steel, perforated steel, or premium timber slats
- › **Access Control:** Self-closing hinges, mechanical code locks, or custom laser-cut numbering
- › **Green Roofing Options:** Enhance sustainability with sedum green roof and integrated drainage
- › **Customisation:** Apertures, signage, and layout tailored to recycling needs
- › **Professional Installation:** Ground anchors and reinforced structure included
- › **Built to Last:** Galvanised steel ensures long-term durability and weather resistance
- › **Made in Britain:** High-quality, reliable, and compliant with UK industry standards

Bespoke Dimensions & Cladding Available to Fit Any Project Specifications

## CLEMENT REFUSE STORE

Our Clements Refuse Store provides a high-quality, secure, and fully customisable waste and recycling management solution. Designed for commercial and residential developments, these bin stores accommodate bins from 140L up to 1100L Euro bins, ensuring a perfect fit for your site requirements.

### Customisation that Works for You

Every site is different which is why this refuse store is built to adapt:

- › **Highly Customisable:** Adaptable cladding, locks, doors, signage, and layouts to suit project requirements
- › **Sustainable Option:** Sedum roof designs support biodiversity and sustainable drainage
- › **Secure By Design:** Access control options reduce misuse and ensure proper waste separation
- › **Professional Finish:** Premium timber or PPC steel options blend with any development aesthetic
