

PREMIUM AMAZON LOCKER

Secure, Sustainable & Design-Led Cycle Storage

The Premium Amazon Locker is a bespoke, high-spec cycle storage solution designed for architects, contractors, and developers who demand both functionality and design. Manufactured in Britain, it combines a hot-dipped galvanised steel frame with premium timber cladding, creating a durable, weatherproof locker that enhances any project. More than just a bike locker, this versatile unit can be configured to include bin storage, garden/tool storage, or multi-purpose compartments, making it an adaptable for urban environments. With optional sedum green roofing, FSC-certified timber choices, and BREEAM-compliant materials, the Premium Amazon Locker not only provides security but also support sustainable construction. Perfect for commercial bike storage in London, residential developments, and public projects, the Premium Amazon Locker can be tailored to any specification.

- › **Customisable Design:** Bespoke sizing and layouts to fit project requirements
- › **High-Security Build:** 50mm SHS frame, galvanised to BS EN ISO 1461:2022 with PPC finish
