Our brands

We combine the products and expertise across our five brands, Dudley, Epson, Beta, Resan and Cronex, to bring you a one-stop solution for your plumbing requirements. Each of our brands have been carefully designed to include a specific range of products allowing you to quickly and easily find the products you are looking for.

- One convenient, customer driven supplier
- Access to the Dudley, Epson, Beta, Resan & Cronex brands
- Over 6,000 innovative products
- Bespoke and own brand packaging formats
- One order, one invoice and one delivery
- Unrivalled UK stock holding and service
- Advanced warehousing and logistics
- Sales and Marketing support
- On site UKAS accredited and WRAS recognised test facility

More than
6,000
trusted plumbing parts

Over
100
years experience

Dudley manufactures superior quality plumbing products in our dedicated and ultra-modern facilities here in the UK.

Quality doesn't have to cost the earth. Epson supplies cost-effective solutions for a wealth of reliable plumbing parts.

Our plumbing brassware range, suitable for an array of plumbing jobs with excellence at the heart of each part.

We manufacture anti-ligature sanitaryware products for many market sectors.

Cronex is our export range, distributing the best plumbing, hardware and electrical supplies worldwide.

Leaky Loos - Why Syphons are the answer?

In the world of plumbing, efficiency and reliability are paramount.

One of the most significant advancements in toilet technology is the introduction of the toilet syphon. This innovative solution addresses the persistent issue of leaks, offering a leak-free, water-saving alternative to traditional valves. Designed with both the

environment and cost-effectiveness in mind, toilet syphons are revolutionising the way we think about water conservation and plumbing maintenance. Discover why toilet syphons are the superior choice for any specification project.

The Leak-Free Solution

Toilet syphons are the ultimate answer to the leaky loo crisis. Unlike traditional valves, syphons are designed to be leak-free, ensuring that water stays where it should be – in the cistern until it's needed. This innovative technology eliminates the common issue of leaks, which not only conserves water but also saves money and time on repairs.

Minimum Water Wastage

With a syphon, you can be confident that every drop of water is used efficiently. The syphon mechanism ensures minimum water wastage, making it a superior choice for those committed to water conservation. This is particularly important in today's world, where every effort to save water counts.

Easy Installation and Maintenance

Syphons are not only effective but also easy to install and maintain. Their straightforward design means that they can be fitted quickly and require minimal upkeep, reducing the hassle for both installers and users. This makes them a cost-effective solution for any plumbing system.

Cost-Effective and Reliable

Switching to a syphon from a valve can significantly reduce the risk of leaks, which are a major cause of water wastage and high utility bills. By fitting a toilet syphon, you can reduce leaks to practically zero, offering a cost-effective and reliable solution that benefits both the environment and your wallet.

Flow control

Improves water flow resulting in an optimum flush

The Science Behind Syphons

So, how does a syphon succeed where a valve fails? To quote our Innovation Director, "...through an elegant symphony of physics and engineering, aptly termed – Syphonic Technology...". A syphon has the unique ability to cause a liquid to flow upward, acting like a miniature water lift. This upward flow is crucial for preventing leaks, as it ensures that water only moves when it is supposed to, unlike valves that can fail and cause continuous leaks.

A Practical Solution for the Leaky Loo Problem

A valve lacks the water lift technology of a syphon and is prone to leaks, which is the enemy of water conservation. Simply

put, no upward flow means no leak-proof guarantee. Our syphon technology offers a practical solution to the infamous leaky loo problem that aligns with DEFRA's proposed changes to water regulations. For all those involved in the building and maintenance sectors, facilities management, and water industries, it's time to sit up and take notice. The future of leak-free, water-saving flushing technology is available now – the reliable, leak-free toilet syphon!

We are at the Cutting Edge of Technology – Quantum

Introducing the World's first push button syphon!

We are proud to announce the launch of Quantum, the ground-breaking all new push button operated leak-free syphonic action toilet flush valve. This state-of-the-art product represents a significant leap forward in toilet flushing technology, offering unparalleled efficiency, reliability and water conservation.

Quantum's key Features:

Innovative Pushbutton Operation: Quantum is the first button operated mechanically activated syphon and comes equipped with a user-friendly pushbutton mechanism [available in various styles], providing a convenient and intuitive flushing experience. The modern design of the pushbuttons enhances user interaction while ensuring a reliable and consistent flush with every use.

Leak-Free Syphonic Technology: Designed and engineered in the UK with precision, Quantum incorporates advanced syphonic technology that lifts water with no power assistance in order to eliminate leaks and minimise water wastage. The leak-free design enhances the durability of the valve and contributes to water conservation efforts.

Water Conservation: We are committed to sustainability, and the new Quantum Leak-Free Syphonic Toilet Flush Valve reflects that commitment. In the UK enough water is leaking from toilets in the UK to fill over 4 MILLION baths EVERY SINGLE DAY. By utilising the leak-free benefits of a syphon, coupled with the ease of the pushbutton mechanism of a flush valve, Quantum

optimises water usage by eliminating leaks without compromising performance, Quantum helps users reduce their environmental footprint and lower water bills.

Easy Installation and Maintenance: Designed with installers and maintenance teams in mind, Quantum boasts a hassle-free installation process and requires a vastly reduced amount of maintenance compared to a standard flush valve. This ensures that both professionals and end-users can enjoy the benefits of this cutting-edge technology with ease.

Durable Construction: Crafted from high-quality materials, Quantum is built to withstand the rigors of daily use. Its robust construction ensures longevity, making it a reliable and cost-effective choice for residential and commercial applications.

Chris Slezakowski, Business Unit Director said: "We are thrilled to introduce Quantum, the first in a new line of Pushbutton Operated Leak-Free Syphonic Toilet Flush Valves, this innovative product, coupled with our Hydroflo Delay Inlet Valve, represents the biggest breakthrough in water saving for toilets. Quantum not only redefines the flushing experience but also addresses key concerns related to water conservation and reliability. Our commitment to innovation and sustainability shines through in this product, exemplifying our dedication to providing solutions that make a positive impact."

New Products

eco cistem™ Concealed Cistern

TOILET CISTERNS // WASHROOM FILL & FLUSH

- The first cistern to re use condensate from air-conditioners to provide free water to flush toilets
- Reusing waste water with back up mains water supply; ensures that a full toilet flush is available even when usage frequency is high
- Stores 18 litres of water
- No electricity required
- If the toilet is not used for a while, surplus condensate is simply drained away
- Reduces carbon footprint by conserving water that would ordinarily go to waste, lowering overall water demand
- Considering a 1.75kw aircon unit, one of the smallest on the market, can produce over 1 litre of condensate per hour, an eco-cistem™ installation will always make substantial savings on freshwater usage

eco-cistem™ in partnership with Thomas Dudley, uses the condensation produced by air conditioning units to flush toilets. Until now, this free, sustainable source of water has gone to waste.

- The world's most environmentally friendly toilet cistern
- Combines sustainable design with smart functionality

eco-cistem™ Case Study One City Park, Bradford

41 eco-cistem™ units installed
Estimated annual water savings: 600,000 litres

One City Park is a landmark commercial office development in the heart of Bradford - marking the city's first new office building in over 25 years. Completed in 2024 ahead of the Bradford City of Culture 2025 celebrations, the five-storey, 56,000 sq ft Grade A facility sets a new benchmark for sustainable design and digital connectivity.

The building has achieved:

- Gold SmartScore certification*
- Gold WiredScore certification**
- BREEAM Excellent rating***

G&H was appointed by main contractor Caddick Construction to deliver full mechanical, electrical, and public health (MEP) design and build services. Their work included the integration of rooftop photovoltaic panels, air source heat pumps, and ten EV charge points - each contributing to the building's high-performance credentials.

To further reduce environmental impact, G&H specified and installed 41 eco-cistem™ units across the building - approximately 12 per floor. These innovative cisterns repurpose grey condensate water generated by the building's air conditioning system, using it to flush toilets instead of drawing on mains water.

Each eco-cistem™ unit features:

- A patented 18-litre twin-chamber cistern
- 12-litre upper chamber for grey water storage
- 6-litre lower chamber for flushing
- Automatic prioritisation of grey water, with mains backup only when needed

This smart reuse of condensate water ensures consistent flushing performance while dramatically reducing freshwater consumption.

"The eco-cistem™ units are an ideal way to harness the grey condensate water produced by the air conditioning system," says David Davis, Pre-Construction Director at G&H. "Using our bespoke calculator, we modelled annual condensate output, flush frequency, and water costs. The result was a projected return on investment in under three years - while supporting the building's sustainability goals."

Shown here as a single-unit install, eco-cistem™ is fully scalable—ideal for hotels, flats, and offices. Multiple units fit standard service voids, with a full design guide available at eco-cistem.com.

* Recognises smart buildings that deliver exceptional user experience, sustainability, and future-readiness ** Assesses digital infrastructure, resilience, and connectivity. *** Measures environmental performance across a building's lifecycle

New Products

Quantum The World's first front Push Button Syphon

SYPHONS // WASHROOM FILL & FLUSH

- Innovative pushbutton operation with a mechanically activated syphon, comes equipped with a user-friendly pushbutton mechanism
- Leak-Free syphonic technology designed and engineered in the UK from high-quality materials
- The leak-free design enhances the durability of the valve; contributing to water conservation efforts as we are committed to sustainability
- Optimises water usage by eliminating leaks without compromising performance
- Easy installation and maintenance
- Reliable and cost-effective choice for residential and commercial applications

Push button operation with a choice of caps; flush, slight and palm push

- Syphons use a unique water lift mechanism, moving water upward before gravity takes over, ensuring a leak-free flush
- No joints beneath the waterline; eliminating the primary cause of leaks and promoting water conservation

Inlet Valves 03

Hydroflo Airgap Compact Float Valve

INLET VALVES // WASHROOM FILL & FLUSH

Hydroflo compact delay fill bottom inlet valve with brass tail

- Supplied with 'Air Gap' as standard since 2004
- Water regulations compliant replacement inlet valve for most modern ceramic & plastic cisterns
- Fixed height bottom inlet valve, ensure fitment is appropriate for the size of cistern. (241mm 9.5" recommended for most applications)
- Compact float will not catch on tight cistern installations where the inlet valve is close to the syphon or outlet valve, ensuring perfect operation
- Wide waterline adjustment range of 140mm to 220mm
- Professional ½" brass tail
- Water saving delay fill action
- Time saving, flow regulation works for all water pressures; no need for removal
- Patented integrated quiet fill action
- New simple and efficient 2-piece filter design
- Unique float arm - impossible for the float to become detached

Size	Code
Hydroflo Airgap Compact Float Valve - 203mm (8")	370908

Hydroflo Airgap Compact Float Valve - 292mm (11.5")	370915
Hydroflo Airgap Compact Float Valve - 305mm (12")	370916

- Air Gap as standard
- Unique float arm

Dudley Hydroflo Float Valves are Equilibrium Quiet Filling Part 4 Valves, manufactured to BS1212 standards. These are available in side or adjustable bottom inlet from 8" to 11.½", with either a plastic or brass tail option to help prevent cross-threading. The unique float arm makes it impossible for the float to become detached. Simple and easy to install, this valve is a great replacement for any cistern. Telescopic valves can have a joint beneath the waterline when installed. To ensure full compliance to water regulations when fitting, please ensure the joint is above the critical waterline.

AUTO SYPHONS

SYPHONS // WASHROOM FILL & FLUSH

Our WRAS approved Auto Syphons have been available for over 30 years and have built an enviable reputation for both quality and reliability. This has resulted in their specification by many large OEM's for use in their own cisterns.

When it comes to controlling the flushing of urinals, the Auto Syphon is still the most inexpensive, trouble-free and simple to install product on the market.

- Easily controlled to minimise water usage
- Requires NO electricity supply
- Requires virtually no maintenance
- Simple to install

Designed to cater for the varied flushing requirements of large and small urinal w.c installations of all types conform to BS 1876 and are available in two outlet sizes:

- 1" [25mm] BSPT
- 1½" [32mm] BSPT

All Auto Syphons are supplied complete with two rubber washers & back nut and is fully tested before leaving the factory.

Can be used in conjunction with other products in our range:

- Sparge Pipes [Page 102]
- Spreaders [Page 102]
- Brackets [Page 88]
- Pet Cock [Page 102]
- Kinetic Range [Page 46]
- Urinal Wastes [Page 74]

06 Toilet Cisterns // Concealed

eco cistem™

TOILET CISTERNS // WASHROOM FILL & FLUSH

eco cistem™ in partnership with Thomas Dudley. The first cistern to re-use condensate from air-conditioners to provide free water to flush toilets.

- 485mm [W] x 476mm [H] x 195mm [D]
- Water saving
- Patented chamber design for enhanced performance
- Compatible with grey water input for eco-efficiency
- Pneumatic activation – Manual/IR flush plate option
- Adjustable flush volumes between 6L and 3.½L
- Supplied with 600mm plastic air tube
- Supplied with 2" – 1.5" flush pipe
- Supplied Wall/frame mounting brackets
- Dual fixing points allowing front or rear fixing
- An extensive range of finishing accessories - including push plates, pushbuttons, levers, and touch-free sensors—allows for full customisation to suit any aesthetic or specification
- The first and only cistern to give BREEAM credits and LEED points
- For other variations please contact us

• Combines sustainable design with smart functionality

Eco-cistem® uses the condensation produced by air conditioning units to flush toilets.

Engineered to integrate seamlessly with fitted furniture, tiles, and various partitioning materials, these cisterns support wall-mounted, frame-mounted, and fully concealed installations, and are compatible with both wall-hung and floor-mounted WCs.

Tailored for a wide array of environments—hotels, offices, residential buildings, retail spaces, leisure centres, and anywhere with air conditioning.

07 Touch Free // Urinal Controls

KINETIC® INFRARED URINAL FLUSH CONTROL

TOUCH FREE // WASHROOM FILL & FLUSH

Dudley Kinetic® intelligent multi urinal flush control

- Ideal for use with automatic cisterns and multiple station urinals
- Can be easily installed into pipework, wall or ceiling mounted applications.
- Supplied with an aesthetically pleasing flush mounting kit.
- Each unit can be powered by mains, 4 x AA batteries or mains with battery backup (batteries not included).
- Control box can be installed remotely from the solenoid and is supplied as standard with a 1m cable.
- Can be serviced without removing the Kinetic controller and opening the Kinetic valve
- Passive infrared sensor detects user movement. After a pre-set time, the solenoid valve allows water to fill the cistern and deliver a flush.
- Fast fill reduces scale build up.
- Suitable for water pressures ranging from 0.1 bar to 10 bar.
- Quick and simple set up via user-friendly buttons and intuitive software without having to continually refill and empty the automatic cistern.
- 12 hour hygiene and 24 hour economy flushing modes can also be quickly configured to customer requirements.
- Tamper proof design and chrome fittings are conveniently included.
- Control box dimensions: 118mm(h) x 118mm(w) x 33mm(d).
- Solenoid box dimensions: 98mm(h) x 100mm(w) x 50mm(d).
- Regulates flushing based on actual washroom usage to save up to 80% of water when compared to traditional systems.

Syphon Diaphragm Washer

ROUND / OVAL SYPHON DIAPHRAGM WASHER

- 114mm [4½"] and 127mm [5"] Round Shape in clear, strong plastic
- 138mm [5½"] Oval Shape in clear, strong plastic
- Seals syphon housing to ensure water efficient flush

Item	Code
4½" Round	367473
5" Round	367477
5" Oval	313245

Petcock

ADJUSTABLE FLOW CONTROL PETCOCK. FOR USE WITH AUTOMATIC SYPHONS

- Suitable for use with Automatic Syphons see page 33
- Fitted to inlet pipe for adjustable flow control
- Can be easily adjusted by removing end cap, & twisting the valve inside to control fill rate to desired flow

Item	Code
Petcock (½" BSPT)	364979

Spurge Pipe Sets

STAINLESS STEEL SPURGE SETS

- Includes Brackets & Fixings
- 23mm Bowl Offset & 90mm Cistern Offset
- Multiple Bowl set options

Bowl Set	Code
1	330621
2	330622
3	330623
4	330624

Urinal Spreader

TOP INLET

- Top inlet is a push-fit mechanism; easy install
- Mostly used as a replacement in exposed urinal cistern systems

Inlet	Code
Top Inlet Urinal Spreader	364969

Urinal Spreader

BACK INLET

- Mostly used as a replacement in concealed urinal cistern systems
- Back Inlet Tail is made from solid brass and head has a smooth chrome finish

Inlet	Code
Back Inlet Urinal Spreader	364968

DC Pipe Interrupter

DC PIPE INTERRUPTER FOR USE WITH URINALS AND DIRECT FLUSH URINAL SENSORS

- 15mm Inlet / 22mm Outlet
- Prevents bacteria contaminating mains water supply
- For use with urinals & direct flush urinal sensors see pages 46-47

Item	Code
DC Pipe Interrupter	327995

Cistern & Tank Fittings // Flushpipe Bends & Accessories 03

Epson Europipe

SPECIFICALLY DESIGNED TO FIT EUROPEAN STYLED FITTINGS

- 457 x 457mm [18"x18"] 2" [50mm] to 1½" [41mm]
- Manufactured from one piece, rigid white PVC, has high strength & rigidity, allowing for a good seal at either end, & maintaining a full flush
- Standard size of 18" x 18" this allows the installer to cut the pipe horizontally or vertically to size, allowing greater flexibility in cistern height installation, & wall to pan distance
- Should you be presented with a more irregular installation problem, on request this flushpipe can be manufactured to a max height of 20" & a maxi wall to pan length of 36"
- Manufactured from one piece, rigid white PVC. On request horizontal length can be increased to a max of 36"

Item	Code
Epson Europipe	363705

PVC Flushbends

PVC LOW LEVEL AND EXTENDED FLUSHBENDS

- Manufactured with a 38mm Outside Diameter
- 90° Swept Bend
- Come supplied with tapered sealing ring

01 Brass Float Valves & Accessories

PART 2 SIDE ENTRY BALLVALVE

BRASS FLOAT VALVES & ACCESSORIES // SIDE ENTRY BALLVALVE

Brass Part 2 Side Entry Ballvalve

- WRAS Approved [Excluding 366892 & 366886]
- To BS1212 Part 2
- Can be supplied with bronze seats, brass backnuts and varying lever lengths
- Recommended float use:
 ½" inlet – 4½" with ⅜" Thread;
 ¾" inlet – 6" with ⅜" Thread
- Standard Nylon Seat supplied 60°; Bronze Seats 80°

High Pressure: ½" Inlet – 8.3/4" x 3.1/2" Lever, 1/8" Seat

Size	Code
1½" Standard Tail, Brass Backplate	366860
1½" Standard Tail, Plastic Backplate	366878
2" Tail, Brass Backplate	366879
3" Tail, Brass Backplate	366880

High Pressure: ¾" Inlet – 8.3/4" x 3.1/2" Lever, 1/4" Seat

1½" Standard Tail, Brass Backplate	366886
Low Pressure: ½" Inlet – 8.3/4" x 3.1/2" Lever, 3/8" Seat	
1½" Standard Tail, Brass Backplate	330085
2" Tail, Brass Backplate	366898
3" Tail, Brass Backplate	366899

Low Pressure: ¾" Inlet – 8.3/4" x 3.1/2" Lever, 3/8" Seat

1½" Standard Tail, Brass Backplate	366892
------------------------------------	--------

Medium Pressure: ½" Inlet – 8.3/4" x 3.1/2" Lever, 3/16" Seat

1½" Standard Tail, Brass Backplate	366890
------------------------------------	--------

PART 2 BOTTOM ENTRY BALLVALVE

BRASS FLOAT VALVES & ACCESSORIES // BOTTOM ENTRY PART 2 BALLVALVE

Part 2 Bottom Entry Ballvalve

- Can be supplied with bronze seats, brass backnut and varying lever lengths
- Standpipe can be supplied straight or offset and in varying lengths
- To BS1212 Part 2
- 9" Height
- Available in both High and Low Pressure specification

High Pressure: ½" Inlet – 8.3/4" x 3.1/2" Lever, 1/8" Seat

Size	Code
1½" Standard Tail, 9" Standpipe	366883

Low Pressure: ½" Inlet – 8.3/4" x 3.1/2" Lever x 3/8" Seat

Size	Code
1½" Standard Tail, 9" Standpipe	366900

Brass Float Valves & Accessories 01

PART 1 SIDE ENTRY BALLVALVE

BRASS FLOAT VALVES & ACCESSORIES // PART 1 SIDE ENTRY BALLVALVE

Brass Part 1 Side Entry Ballvalve

- To BS1212 Part 1
- Available with bronze seat, brass piston, brass backnut, and varying lever lengths if required
- Recommended float use:
 ½" inlet – 4½" with ⅜" Thread
 ¾" inlet – 6" with ⅜" Thread

High Pressure: ½" Inlet – 8.3/4" Lever with 5/16th Thread, 1/8" Seat

Size	Code
1½" Standard Tail	366802
2" Tail	366818
3" Tail	366823

Low Pressure: ½" Inlet – 8.3/4" Lever with 5/16th Thread, 3/8" Seat

Size	Code
1½" Standard Tail	366838
2" Tail	366847
3" Tail	366851

PART 1 – 3/4" – 2" INLETS SIDE ENTRY BALLVALVE

BRASS FLOAT VALVES & ACCESSORIES // PART 1 3/4" – 2" INLETS SIDE ENTRY BALLVALVE

Brass Part 1 Side Entry Ballvalve

- Brass float operated
- Ballvalve supplied with removable seats and brass backnuts
- To suit BS1212 Part 1

22" Standard Lever	1 1/4" & 1 1/2"	366964
29" Standard Lever	2"	366983

Lever Part 2

SUPPLIED WITH FLOAT ADJUSTER

- Supplied with Float Adjuster
- Range of sizes to suit all needs
- Manufactured from high quality materials
- Do not bend

Size	Code
8 3/4" x 3 1/2" for 1/2" Part 2 Ballvalve	366963

Brass Pistons

PART 1 BRASS PISTONS MADE TO BS1212

- Manufactured from high quality materials
- Supplied complete with washer

Size	Code
1/2" High Pressure	366989
1/2" Low Pressure	366990
3/4" High/Low Pressure	366993
1" High/Low Pressure	366991
1 1/4" & 1 1/2" High/Low Pressure	366992
2" High/Low Pressure	366994

Cotter Pins

BRASS COTTER PINS

- Suitable for linkage between ballvalve and lever
- Available in a variety of sizes to suit our range of Part 1 and 2 ballvalves

Dia	Fits	Code
1/8"	Part 2 (1/2") Ballvalve	367954
3/16"	Part 1 (3/4") Ballvalve	367956

Drainage Equipment 08

Test Kit
AIR TESTING KIT FOR DRAINS

- All types of drains
- Test Plugs sold separately
- Manufactured in the UK

Item	Code
Test Kit	363858

Smoke Pellets
TUBE OF 6

- White smoke
- 40 second burn time over 18m³ of smoke
- Clean to use, no residue
- Cool to touch after burning
- Harmful if swallowed – keep out of reach of children.
- Do not breathe smoke.
- Manufactured in the UK

Item	Code
Smoke Pellets	363918

Smoke Matches
BOX OF 12

- White smoke
- 20 second burn time over 1.4m³
- Clean to use, no residue
- Cool to touch after burning
- Harmful if swallowed – keep out of reach of children.
- Do not breathe smoke.
- Manufactured in the UK

Item	Code
Smoke Matches	363917

Drain Trace Dye
NON TOXIC – BIODEGRADABLE – QUICK METHOD FOR LOCATING LEAKS IN DRAINS

- Manufactured in the UK
- 200gm jar
- Powder form
- Non toxic
- Odourless
- Large range of colours
- Biodegradable
- A quick method of locating leaks in drains

Capillary Gas Cock
SELF COLOURED BRASS CAPILLARY GAS COCK

- For controlling gas flow, so necessary repairs can be carried out
- Gas can easily be shut off in the event of an emergency
- Manufactured from high quality materials
- Must be fitted by a Gas Safe Registered Engineer

Size	Code
8mm Rigid Fan	364124
15mm Rigid Fan	364125
22mm Rigid Fan	364126

Ball Type Gas Cock
EN331 GAS APPROVED BALL TYPE

- For controlling gas flow, so necessary repairs can be carried out
- Gas can easily be shut off in the event of an emergency
- Manufactured from high quality materials
- EN331 Gas Approved Ball Type
- Must be fitted by a Gas Safe Registered Engineer

Size	Code
8mm	364130
10mm	364127
15mm	364129

Pressure Testing Nipple
½" PRESSURE TESTING NIPPLE

- ½" thread
- Manufactured from high quality materials
- Must be fitted by a Gas Safe Registered Engineer

Size	Code
½" Pressure Testing Nipple	364165

Straight Mini Gas Ball Valve
COMPRESSION X COMPRESSION STRAIGHT MINI BALL VALVE

- Compression x Compression – to EN331. 10 bar, temperature -20° to 85°C
- Compact chrome plated brass ballvalve with yellow coded handle
- For controlling pipe flow, so necessary repairs can be carried out
- Gas can easily be shut off in the event of an emergency
- Manufactured from high quality materials
- Must be fitted by a Gas Safe Registered Engineer

Size	Code
8mm	364146

Rubber Coupling for Drainage
RUBBER COUPLING FOR DRAINAGE

- Manufactured from an elastomeric compound
- Stainless Steel Hex Head Screws
- Meets requirements of ASTM C-564

Size	Code
0.75 or 1" x 1" Dishwasher Connector	367279
1½" x 1½" Tubular Traps Connector (for 1½" or 1½" drain piping)	367280
1½" x 1½" Tubular Traps Connector (for 2" drain piping)	367281

11 Plumbing Brassware & Accessories

Y Strainer

PLUMBING BRASSWARE & ACCESSORIES // VALVES // Y STRAINER

15mm Compression Y Strainer

- 15mm in-line isolating valve
- Double check valve
- Integral removable strainer
- 40 Mesh
- Supplied with both red & blue handles
- 180° rotation
- Suitable for copper & plastic pipe

Type	Code
15mm Compression with Double Check Valve, 40 Mesh	364116

For alternative Y Strainer please see page 171

Ideal for isolating both domestic and commercial systems, where particles or sediment may impact the performance or lifespan of the system

- Compact and easy to clean fitted with a removable drain plug
- Ideally suited for applications to protect pumps, meters and valves

Thermostatic Radiator Valve

THERMOSTATIC RADIATOR VALVE. VARIOUS SIZES

- 15mm Liquid Sensor

Size	Code
15mm	363961

11 Plumbing Brassware & Accessories // Radiator & Heating Products

Towel Rail Valve
TOWEL RAIL VALVE WITH METAL TOPS

- Brass Body
- Chrome Plated
- Supplied in Pairs
- Supplied with Metal Tops
- Heavy Pattern

Size	Tops	Code
15mm x 1/2" Angle	Metal	363962

Radiator Drain Off
RADIATOR DRAIN OFF VALVE

Item	Code
Radiator Drain Off	364035

Radiator Tail
ADJUSTABLE RADIATOR TAIL

Size	Code
20mm	363959
40mm	363960

Radiator Spanner

- Manufactured from high-quality materials
- Hexagonal shape
- Square socket end
- For use with radiator tails and valves

Item	Code
Radiator Spanner	364286

Radiator Brackets

- Supplied in sets of 4
- Fits most standard radiators
- Manufactured from high-quality materials

Item	Code
Radiator Brackets	364285

Alloy Radiator Key
ALLOY RADIATOR KEY WITH SQUARE FEMALE END

Item	Code
Alloy Radiator Key	368126

Clock Type Radiator Key
BRASS CLOCK TYPE WITH SQUARE FEMALE END

Item	Code
Clock Type Radiator Key	368123

Tommy Bar Radiator Key
BRASS TOMMY BAR TYPE WITH SQUARE FEMALE END

Item	Code
Tommy Bar Radiator Key	368127

Air Vents
CAPILLARY AIR VENT

- Brass with BSP male parallel thread
- 10bar max

Size	Code
15mm	364441
22mm	364443

Air Vents
1/4" CHROME PLATED AUTO AIR VENT

- Brass with BSP male parallel thread
- 10bar max

Size	Code
1/8"	368124

Radmaster Radiator Tail
RADMASTER ISOLATING RADIATOR TAIL

- Compatible with all systems irrespective of size of inlet/outlet valves
- No airlocks & no need to drain the system
- Isolates radiator from heating system
- One man operation
- Tested to 25 bar
- Allen key operation for all round access
- No need to re-pressurize the system
- Tested and conforms to BS2767

Item	Code
Radmaster Radiator Tail 1/2" BSP	368354

Type A Capillary Draincock
TYPE A CAPILLARY DRAINCOCK IN VARIOUS SIZES 15mm LONG SHANK

- Sturdy brass construction
- Supplied with seal inside body, this keeps the product watertight when not in use
- Lockshield top – no need for a specific key to tighten
- Water flow easily adjusted by use of a spanner

Size	Code
15mm	364028
15mm DZR	364029
15mm DZR Lockshield	364030

Type A Capillary Long Draincock
TYPE A CAPILLARY LONG DRAINCOCK 15mm TAIL SHANK

- Sturdy brass construction
- Supplied with seal inside body, this keeps the product watertight when not in use
- No need for a specific key to tighten
- Water flow can be easily adjusted by use of a spanner

Item	Code
Type A Capillary Long Draincock	364031

Type A Draincock
TYPE A DRAINCOCK IN VARIOUS SIZES

- Sturdy brass construction
- Supplied with seal inside body, this keeps the product watertight when not in use
- No need for a specific key to tighten
- Water flow can be easily adjusted by use of a spanner

Size	Code
1/2"	364024

TYPE B DRAINCOCK
IN VARIOUS SIZES

- Sturdy brass construction
- No need for a specific key to tighten
- Water flow easily adjusted by use of a spanner

Size	Code
½"	364032
15mm	364033

Auto Air Vent
BLASTED BRASS AUTO AIR VENT

- Manufactured from blasted brass
- Automatically does all the work for you
- Supplied with Isolating Valve

Size	Code
½" with Isolating Valve	368122
¾" with Isolating Valve	368121

Combi Filling Loop
DZR DOUBLE CHECK VALVE

- Manufactured from high quality materials
- DZR double check valve connected to either straight or tee brass isolating valve

Type	Code
Tee	368957
Straight	368958
Part 'L'	368959

Gate Type Pump Valve
BRASS GATE TYPE PUMP VALVE

- Manufactured from high quality materials
- Supplied with fibre washers
- Suitable for water
- Adjustable flow control

Size	Code
22mm	364061
28mm	364062

Ball Type Pump Valve
BALL TYPE PUMP VALVE

- Manufactured from high quality materials
- Supplied with fibre washers
- Suitable for water

Size	Code
22mm	364063
28mm	364064

Pump Valve Fitting Nuts
BRASS NUT

- Manufactured from high quality materials
- Suitable for water

Item	Code
Pump Valve Fitting Brass Nuts	364065

Pump Union
1½" x 1" BRASS PUMP UNION

- Manufactured from high quality materials
- Supplied with fibre washers
- Suitable for water

Size	Code
1½" x 1" Brass Pump Union	364066

Plumbing Brassware & Accessories // Radiator & Heating Products 11

Short Adaptor
1½" SHORT ADAPTOR

- Manufactured from high quality materials
- Supplied with fibre washers
- Suitable for water

Size	Code
1½" Short Adaptor	364067

Long Adaptor
1½" LONG ADAPTOR

- Manufactured from high quality materials
- Supplied with fibre washers

Extension Pump Union
EXTENSION PUMP UNION

- Manufactured from high quality materials
- Supplied with fibre washers
- Suitable for water

Item	Code
Extension Pump Union	364069

Pump Gasket
1½" PUMP GASKET

- Manufactured from high quality materials
- Suitable for water

Size	Code
1½" Pump Gasket (fibre)	364070

Immersion Heater Plug
COPPER CYLINDER IMMERSION HEATER PLUG

- For use in copper cylinders
- Size 2½"
- Accessories available

Size	Code
2½" Immersion Heater Plug (comes with fibre washer)	364087

Spare Washer
IMMERSION HEATER PLUG SPARE WASHER

Item	Code
Spare Washer (fibre)	364088

Spring Safety Valves
SAFETY VALVE OPERATED BY INTERNAL SPRING

- Manufactured from high quality materials
- Operated by an internal spring
- Valve vents if set pressure is exceeded
- Internal spring operated
- Maximum opening pressure between 4-5 bar

Size	Code
½"	364085
¾"	364086

11 Plumbing Brassware & Accessories // Washing Machine Accessories

Washing Machine Taps

WASHING MACHINE TAPS SUPPLIED WITH RED AND BLUE HANDLES

- Brass Body, Chrome Plated
- Supplied with red and blue handles
- 15mm x 3/4" BSP
- Suitable for both hot and cold water

Type	Code
Straight	
Straight Light Pattern	363971
Straight Heavy Pattern	363973
Straight with Single Check Valve	363985
Angle

Tee	
WRAS approved Tee Washing Machine Taps	363977

Self Cutting Washing Machine Tap

SELF CUTTING WASHING MACHINE TAP. 15mm STRAIGHT

- A quick and easy way to install a washing machine tap
- Fits standard 15mm copper pipe
- Suitable for both hot and cold water

Item	Code
Self Cutting Washing Machine Tap	363972

Blue / Red Washing Machine Hose

BLUE/RED WASHING MACHINE HOSE. UNIVERSAL TO FIT WASHING MACHINE/DISHWASHER

Size	Code
1.5m Blue	363978
2.5m Blue	363981
1.5m Red	363979
2.5m Red	363982

Grey Outlet Hose

WASHING MACHINE/DISHWASHER OUTLET HOSE

Size	Code
1.5m	363986
2.5m	363987

Plumbing Out Kit

SUITABLE FOR 32mm & 40mm WASTE CONNECTIONS

- Supplied with easy boring all steel cutter
- Built in non return valve to prevent back flow and drainage smells

Size	Code
Plumbing Out Kit	363988

Y Adaptor

UNIVERSAL TO FIT WASHING MACHINE / DISHWASHER

- Universal to fit washing machine/dishwasher
- Allows 2 appliances to use the same water supply

Size	Code
3/4" BSP Y Adaptor	363980

Outlet Hose Connector

EXTENDER FOR WASHING MACHINE/ DISHWASHER WASTE OUTLET

- Designed to extend a washing machine or dishwasher waster outlet
- Size: 17mm
- Simple and easy to fit – push fit no tools required
- Recommend using our genuine Jubilee Hose Clips to help secure hose

Size	Code
17mm Outlet Hose Connector	363984

Inlet Hose Connector

DESIGNED TO JOIN TWO WASHING MACHINE HOSES TOGETHER

- Size: 3/4"

Size	Code
3/4" Inlet Hose Connector	363983

323745	Toilet Seat Hinge	Top Fix Hinge for Rhianna and Esme Soft Close Toilet Seat

Electroflo Spares & Accessories

Code	Product Name	Description
323694	Battery Box	IP67 Battery Box for Battery Operated Dudley Electroflo Taps (Except Contemporary)
323692	Power Splitter	Two Way Power Splitter (M-F2) 100mm (For use with Contemporary Taps)
324324	Power Splitter	Two Way Power Splitter (F-M2) 100mm
324325	Power Splitter	Three Way Power Splitter (F-M3) 100mm
326398	Cable Extension	3 Metre Cable Extension for Electroflo Taps, Urinals and Soap Dispensers (RED)
326998	Solenoid Valve	Solenoid Valve Spare, for Dudley Electroflo Taps and Urinal Sensor. (Includes Diaphragm)
333866	Diaphragm	Diaphragm only for Solenoid Valve for Dudley Electroflo Taps. 10 Pack

Electroflo WC flush Spares & Accessories

Code	Product Name	Description
325443	Junction Box	Transformer Junction Box for Dudley 'Electroflo' Cisterns (Suitable for up to 10 Cisterns)
324468	Electroflo Control Box & Sensor	Electroflo Control Box & Sensor only
324469	CP Single Flush	100mm Surround only Dudley 'Electroflo'
324470	CP Dualflush	100mm Surround only Dudley 'Electroflo'
325270	Electroflo Extension Lead	500mm Extension Lead
325894	Infrared Sensor Eye	Infrared Sensor Eye with Cable for Dudley 'Electroflo' Cistern
326647	Electroflo Control Box	Electroflo Control Box only
329984	Dudley 'Electroflo' Sensor	Satin Stainless Steel Surround, Sensor, 304G
323107	Mains Adaptor Dudley 'Electroflo' Cistern	Mains Adaptor Dudley 'Electroflo' Cistern
324217	Wall Extension kit	125mm Wall Extension kit for WC Electroflo Sensor

Kinetic Spares & Accessories

Code	Product Name	Description
330349	Servicing Kit	Kinetic Servicing Kit
330350	Kinetic Solenoid Valve	White
330351	Kinetic Solenoid Valve	Grey
330353	Kinetic Front Panel	White
330355	Cable	Kinetic Solenoid 1 Meter Cable

Dudley Spares

Dudley Syphon Spares & Accessories

Code	Description
372687	Universal Syphon Toilet Repair Kit Including: Turbo Edge Adjustable Syphon, Hydroflo Telescopic Compact Float Valve & Cistern Lever
313313	Dudley Syvac Syphonic Aspirator (For S7 and Turbo 88 only)
316855	Plastic Piston with Polythene Diaphragm for Turbo 88 Syphon
319797	Plastic Piston with Polythene Diaphragm for Turbo S1-11 Syphon
314837	1½" Plastic Backnut
316571	1½" Capnut
318134	Stainless Steel 'C' Link - Up To 76mm [3"]
317307	Stainless Steel 'C' Link - 3½"
317898	Stainless Steel 'C' Link - 3¾"
317143	Stainless Steel 'C' Link - 4"
322946	Stainless Steel 'C' Link - 4¼"
318323	Stainless Steel 'C' Link - 4½"
317537	Stainless Steel 'C' Link - 5½"
313245	Polythene Syphon Diaphragm to suit Turbo 88 / S7 Cascade
314095	Polythene Syphon Diaphragm to suit S9, Hi-Flo / Japtic
316288	Polythene Syphon Diaphragm to suit Turbo S44
316576	Polythene Syphon Diaphragm to suit Turbo S1-11
319228	Spares Pack for Dudley Turbo 88 2-Part Syphon
315716	Spares Pack for Dudley Turbo S1-11 2-Part Syphon
318665	Spares Pack for Dudley Turbo S44-R 2-Part Syphon
320494	6/7L White Plug for Turbo 88 Syphon
315267	Natural Plastic Bung for Turbo 88 Syphon
370213	38.42mm ID Coupling Nut
367465	2" Syphon Washer Rubber
367466	1½" Rubber Washer for Syphon Tail
367467	1¼" Rubber Washer for Syphon Tail
367468	1" Rubber Washer for Syphon Tail
367473	120mm Round Diaphragm Washer (4½")
367475	Diaphragm Washer to Suit Turbo 11 (Rubberwell) Syphon
316068	203mm Dudley Turbo S44-R2-Part Syphon.
314642	Dudley 216mm Turbo 88 2-Part Singleflush Syphon
315375	Yellow (single) Snap Pin For Dudley Turbo 2-Part Syphons
318729	83mm 'C' Link (3¼")
318927	Piston Assembly Turbo S44-R Syphon
319211	Domed Rubber Washer For Syvac Syphonic Aspirator
371155	Spares Pack for Dudley Turbo Edge® Compact Syphon
371156	Spares Pack for Dudley Cascade+ 1 Piece Syphon
367476	Diaphragm Washer to Suit Turbo 44 Syphon
367477	130mm Round Diaphragm Washer (5")

Dudley Flush Valve Spares & Accessories

Code	Description
372686	Universal Flush Valve Repair Kit Including: Victoria Dualflush Valve, Hydroflo Telescopic Compact Float Valve, Cistern to Pan Close Coupled Nut, Bolt & Washer Set & Close Coupling Kit Including Washer
318082	1½" Adaptor (Reducer) Suitable for Niagara Mechanical Valve
315900	Push Rods for Niagara Mechanical Valve
