

## CIRCULAR LED PANEL DOWNLIGHT

The 10W, 18W and 24W Circular LED Panel lights are sister products to the Tryka edge lit LED Ceiling Tiles, and use the same high brightness SMD LED technology combined with a high quality micro-honeycomb acrylic diffusion material to create a homogeneous light output.

In addition to the low profile design, a high CRI of >85 and over 70lm per circuit watt is achieved. The use of remote power supplies ensures a low running temperature and outstanding long-term performance, along with ease of future maintenance.

The use of superior grade aluminium, available in silver or white, completes the overall look of the product. Whilst the heat sink has been refined with a sophisticated fin design to maintain a slim-line appearance, at just 15mm depth it still ensures the optimum running temperature of the LEDs for longevity.

### Colours Available

Cool White	6500-2700k
Neutral White	6500-2700k
Warm White	6500-2700k

### Size / Luminosity

D180mm:	450lx @1m
D240mm:	780lx @1m
D300mm:	1180lx @1m

### Specification

Driver Input Voltage:	110-240V AC
Max operating temperature:	+70°C
Operating ambient temperature:	-25° to +65°C
Lamp life @ 50°C:	50,000 hours
IP Rating:	IP54
