

FLOODBAY 60W IP65

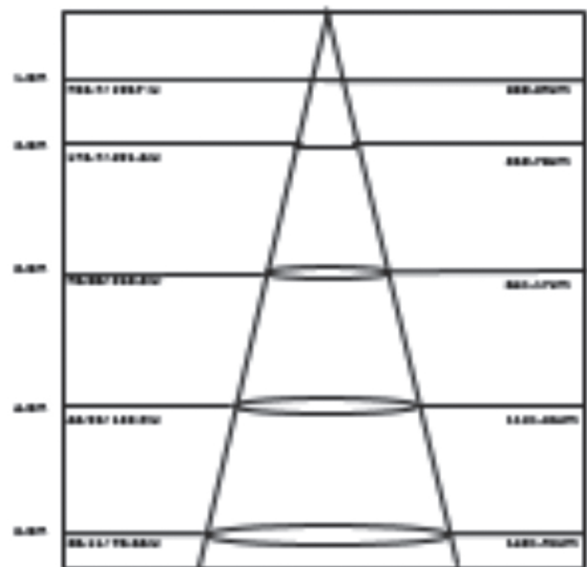

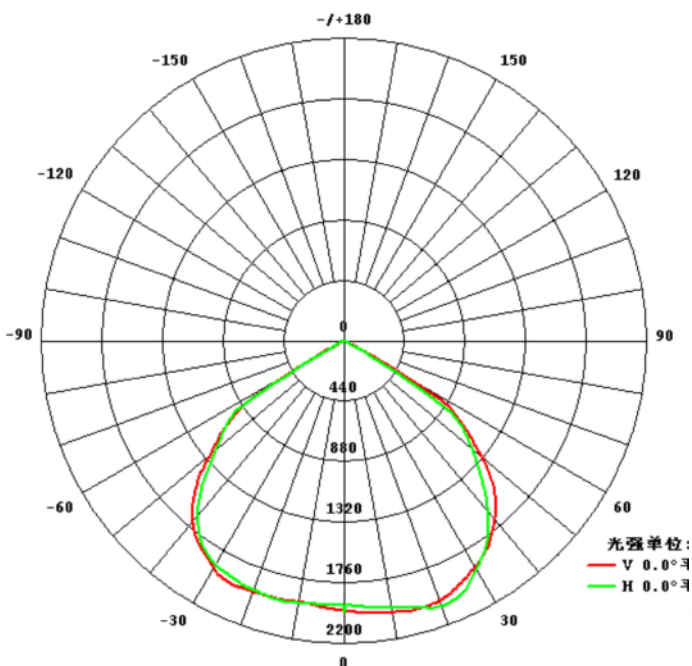

The Tryka range of dual purpose Floodbays have been designed to provide both traditional external area flood lighting, as well as ceiling mounted internal illumination within warehouses and industrial workplaces.

Using high output Bridgelux wafer chips coupled with high efficiency Meanwell drivers these fixtures provide the user with a cost effective alternative. Available with optional PIR motion detector giving maximum energy saving.

Colours Available	Lumen Output	CRI
Cool White - 6000k	5400lm	70
Neutral White - 4500k	5250lm	75
Warm White - 3500k	5100lm	80

Technical Specification

Max Power Consumption:	66w
Ingress Protection Rating:	IP65
LED Life Expectancy:	50,000 hours
Operating Voltage:	AC 85v - 265v
Operating Ambient Temperature:	-40°C to +55°C
Fixing Method:	Mounting Bracket
Construction:	Cast Aluminium Alloy, Toughened Glass
Fixing Method:	Attached Rear Bracket
Product Weight:	8kg

Part Number

TRY-FLB-60W-YYY
