Door Viewers

Door viewers are a great security accessory, as no door should be opened without first checking who is on the other side. Each door viewer has gone through rigorous testing, and has been awarded 'Secured by Design' by the Association of Police Officers. Made with a solid brass body and comprising of 3 plastic lenses, each door viewer ensures to give crystal clear performance for years of safe, secure use.

We have a range of door viewer sizes, in a range of 6 different colours. As standard, the door viewers are salt spray tested for 480 hours, and come with a 5 year inland coating guarantee. Polished brass and chrome door viewers come with a PVD head, which helps prevent rust developing in coastal areas. Polished brass, chrome, black and white door viewers also come with a free privacy cover.

Ultra Wide Angle Secure to View™ Door Viewers

Our ultra wide angle Secure to View™ door viewers provide a clear view for people with sight difficulties, the elderly and wheelchair users. Once installed, it is possible to see who is behind the door from up to 2 meters away. Even if a person is crouched behind the door they are still visible.
