

# ROLLER BLIND SYSTEM

Roller blinds have evolved. Simplicity & sophistication; technology & textiles; design & durability.

Meet Evolve™

## OVERVIEW

- Flexible system with a host of options
- 12 year warranty on hardware
- Sizes up to 4m wide, 6m drop, 16m2
- Unique range of 6 hardware finishes

## SYSTEM DETAILS

The timeless appeal of roller blinds lies partly in their simplicity. Advances in both technical textiles and automation technology have made roller blinds a high-performance solution for shading, building energy management, privacy & security. To say nothing of enhancing the look and feel of your interior.

Evolve is designed to bring together all of these benefits into one simple yet beautiful product.

The heart of the Evolve system are strong steel brackets, extruded aluminium roller tubes and ultra-smooth silent bearings. These are things you don't see, but you will feel the difference over many years of trouble-free operation.

Superb function needn't compromise form. Evolve's six luxury finishes will complement any decor, whether designed to blend in or stand out.

Options for bracket covers or cassettes conceal and protect the blind's mechanism & fixings and create a stunning finish.

Designed to be beautiful, built to last, simple to install. Every Evolve™ roller blind is hand built in our British factory. Just for you.

&EVOLVE™
