

Everything you need to know about Cape Cod Painted Timber Cladding

Cape Cod Factory Painted Timber Cladding

Cape Cod Timber Cladding is pre-coated, using Canadian Lodge Pole Pine. No need for coatings on site, the product is sealed on all sides applying the finest finish available - PPG Machine Applied Coatings - a 100% acrylic, breathable water-based paint. Includes a 15-year coating warranty on solid colours and an 8-year warranty on semi-transparent.

This top-quality finish is applied under strictly controlled factory conditions ensuring that the required thickness is applied over the entire surface of the cladding. This system produces a uniform

Vincent Timber

What else do I need to consider before I order?

Weathering: The coating will protect the timber from exposure to UV light preventing the wood becoming a silver-grey colour.

Coating/Stain? – A wide range of standard colours are stocked based on current trends and traditional favourites. However, if you have something specific in mind, our colour lab is fitted with the best technology for capturing your inspiration and ensuring it can always be reproduced correctly. All paint is applied as a two coat, 100% acrylic system on five sides, including one coat on the back.
