

CASE STUDY

Melissa Galeria

Melissa Galeria

LONDON, UNITED KINGDOM

Type
Indoor

Duration
1 week

When
2017

Size
1m² - 25m²

Melissa is a pioneering brand in jelly shoes and fashion accessories. Their Galeria (concept store) in Covent Garden, London is described as a meeting place for fashion, art and design. They wanted to add a lush green backdrop to transform the space and give a unique retail experience.

Testimonial

The work completed by ANS Global was great, all of their team were very helpful and supported us every time we had doubts about the process. We are very happy with our new green wall, Galeria Melissa now looks different and new! - Tatiane De Conto, Manager

The ANS Global team installed the two living walls during the night to prevent disruption to the stores opening hours. The walls provide a stunning green display with 8 species of interior plants including Ficus pumila 'Green Sunny', Philodendron scandens (heart-leaf) and Adiantum raddianum 'Fragrans' fern.
