

watco[®]

The UK's leading manufacturer and direct supplier
of industrial strength flooring products

About us

Who are we?

For over 90 years, we've been developing industrial maintenance solutions for industrial, commercial, and public buildings. From repair products to floor, wall and roof coatings, it is through extensive research and paint technology advancements that we have become the leading manufacturer and direct supplier of high-performance repair materials and coatings in Europe.

Our strengths

Our products are formulated like no other on the market today. We put our range through extensive testing to prove that when you buy from Watco, you're buying the best. From our award-winning customer service and dedicated technical advisors to our industry accreditations and affiliations, we have no doubt that you're getting the advice you deserve and products that deliver. Trusting in Watco also means choosing solutions that are:

- Easy to understand: We take the complicated out of your projects – we'll tell you exactly what you need and how to apply it.
- Simple to use: Our products are formulated for quick and easy application; you don't need to be an expert to get the perfect finish.
- Built to last: Our product ranges are developed to offer unrivalled performance and durability.

Help and advice

We have a wide range of services to help you complete your flooring projects. Our technical advisors provide a full-service solution, including a virtual site visit to understand your flooring problem, technical advice before, during and after the completion of your projects. In addition, free samples and technical data sheets, before you start the work.

Unrivalled Repair

Our wide range of repair products offer solutions for concrete and asphalt floors, whether it's filling holes, resurfacing or screeding, or crack and joint repairs, our repair products all have unrivalled wear resistance and are always quick and easy to apply.

We offer solutions for almost every repair you could come across:

- Flexible formulations – for areas where vibration, movement or impact may occur
- Cold and sub-zero formulations – for cold and freezing applications
- Chemical resistance – for areas subject to chemicals spillage or damage
- Rapid curing – to reduce downtime and save you money

Our bestsellers

CONCREX® CARBON FIBRE

Epoxy resin repair mortar reinforced with carbon fibre and ceramic.

- Stronger than cement-based alternatives
- 20-year guarantee against impact and abrasion
- Embedded with Carbon Fibre for superior strength
- Resin rich for thin section & feather edge repairs

FLOWPATCH®

Fast, pourable and strong repairs for heavy wear areas.

- Easy to use rapid dry formula
- Takes forklifts in just 2 hours
- Just add water, mix and pour
- Fibre reinforced for added strength

BITU-MEND® ADVANCED

Designed for stronger, longer-lasting pothole repairs.

- Epoxy resin formulation
- Easy application
- Fix holes from 10mm to 100mm
- Ideal for heavy traffic areas, e.g. car parks

High performance Coatings

Our range of high-performance coatings offer solutions for all areas and applications. Our coatings carry CE Mark EN1504-2 making it the most highly qualified paint range on the market. Not only that, but our coatings have also been tested against other leading brands for adhesion, hardness, scratch resistance, abrasion resistance and slip resistance. The results undeniably show Watco coatings are tough, long lasting and with an exceptional finish.

Our bestsellers

EPOXY GLOSS COAT

Fast curing and hard-wearing water-based epoxy formula.

- Fast curing - apply two coats in a day
- Thoroughly tested for proven performance
- Tested safe for food production areas
- Apply to bare or previously painted surfaces

HEAVY DUTY ANTI SLIP TRAFFIC PAINT

Tough, slip resistant coating for heavy duty traffic areas.

- Pre-blended grit offers excellent slip resistance
- Ideal for concrete or asphalt surfaces
- Pedestrian and vehicle
- Only one coat usually required

EPOXICOTE™ HIGH BUILD

Industrial strength 100% solids epoxy resin.

- Heavy duty protection for floors
- Excellent chemical resistance
- One coat high build application
- Superior protection for concrete floor

Anti Slip Solutions

Watco has developed a range of anti slip solutions to help minimize the risk of slips, trips and falls in your premises. Our glass reinforced plastic (GRP) tapes or treads are ideal where an instant, durable and long-lasting anti slip solution is required, for example on steps or busy entrance ways.

Our anti slip solutions allow you to always ensure safety:

- To make your premises safe with anti-slip paints
- To allow your employees to work in complete safety and prevent the risk of accidents
- To combine safety with ease of maintenance
- To make your steps, walkways and ramps safer for visitors and employees

Our bestsellers

SAFETY GRIP®

A tough, high build epoxy coating ideal for steps and ramps.

- Heavy duty with excellent chemical resistance
- Slip resistant even when wet or oily
- Our bestselling coating for over 40 years
- Available in rapid and cold curing formulations

FIRM-STEP® GRP EDGE

A virtually indestructible, anti slip GRP step nosing.

- Ultra-tough GRP won't warp or split
- DDA compliant – highlight step edges
- Free cut to size service
- Quick and easy to install

SAFETY COAT

Heavy-duty two-part epoxy resin anti slip floor coating.

- Water based epoxy formula
- Pre-blended aggregate for an even finish
- Fast curing – apply two coats in one day
- Easy clean, finely textured

Durable Line Marking

Line marking is crucial, whether it's in a warehouse, car park or loading bays. Without it, accidents are almost certain to happen. Choose from our wide range of floor line marking products, from self-adhesive tapes to high quality paints and car park symbols and stickers. It's never been easier to make your premises safer.

Line marking solutions for every project:

- To achieve a highly visible, effective and durable road marking
- For long lasting and durable road markings
- For highlighting dangerous or hazardous areas
- For an efficient and safe working environment

Our bestsellers

ROADMARKER

Chlorinated rubber paint for heavy duty line marking.

- Use on concrete and asphalt
- Just one coat required
- Showerproof in 1 hour
- Floors and playgrounds

HEAVY DUTY LINE MARKING TAPE

Preformed long-lasting line markings for heavy traffic areas.

- 1mm thick robust PVC
- Self adhesive backing
- Chamfered edges to prevent tripping
- Two-year guarantee

TOUGHLINE

Superior quality line marking paint for cold or exterior applications.

- Two-part polyaspartic resin formula
- Flexible and UV resistant
- Ultra durable for heavy wear areas
- Excellent chemicals resistance

General maintenance products

Maintenance & Safety

At Watco, we believe that the protection and safety of people should be the number one priority in the workplace, which is why we offer a range of products designed to ensure safety in any area and on any surface. Find out more about our traffic control, impact protection and matting ranges and more.

COMPACT SPEED BUMPS

A cost-effective solution for increasing safety in car parks.

- Slows traffic to 10mph
- Withstands 40 tonne HGVs
- Fixings supplied
- Can be seen in the dark

Preparation

Preparing a surface is an essential step in ensuring a long-lasting, high-quality result. Our primers, hardeners and degreasers are essential products to effectively prepare a surface, and the application of a suitable primer may be necessary to stabilise and reinforce the adhesion of difficult to paint surfaces.

BIO-D

A heavy-duty biodegradable cleaner for floor preparation.

- Low odour formula
- Ideal for preparation to painting
- Removes oil and grease
- Safe for use on most painted surfaces

Roofing and waterproofing

Our roof waterproofing products have been specifically designed to help you protect your premises by repairing leaks and waterproofing areas subject to the elements. Whether it's a bituminous coating or a sealant, choosing a Watco product will extend the life of a roof while avoiding the high cost of repair work.

ROOFITE®

Quick, easy and long-lasting roof repairs.

- Thick, bitumen blended with rubber
- Flexible coating will not soften in the sun
- One coat bridges cracks and splits
- Suitable for concrete, metal and felted roofs

Watco is committed to providing you with the best possible customer service.
