NATURALLY INSPIRED FLOORING

TECHNICAL DATA & APPLICATION

SCRATCH REPAIR STICKS

Woodpecker Scratch Repair Sticks are designed for filling and hiding deep scratches in real wood and laminate wood. The different colours can be blended together to match many colours of flooring. This wax-based, low-odour product remains permanently malleable and can be re-worked.

TECHNICAL DATA

BASEMineral waxes and clay
CURING SYSTEM Atmospheric drying
CURING TIME AT 20°C 2 hours

APPLICATION:

Use a vacuum to remove any dust or dirt from the scratch. Choose the stick that is the closest colour to your floor and rub it from side to side across the scratch while pushing down hard. Other colour sticks can be used over the top to achieve a close match to the floor colour. Wipe your finger across the scratch to check it's level with your floor and apply more if necessary.

Once the scratch is filled, use a clean and dry cloth to buff away any excess.

Leave for 2 hours to harden. Seal the surface using Woodpecker Scratch Cover.

STORAGE:

Store between 5°C and 30°C.
Shelf life is 5 years in dry conditions.

SPECIFICATION DISCLAIMER

This technical data sheet was written by Woodpecker Flooring and at the time of writing and publication, all information was specified correctly. The company reserves the right to change specification without notice. Customers should confirm that the product is still available with the specification shown.
