

HiSec Print DualFix

Features & Benefits:

- Available with the design or print of your choice, ideal to brand your fence line or create a feature
- Manufactured to the traditional 358 tight mesh pattern offering no climbing aids and mitigates attack by hand and powered tools
- Open mesh pattern provides excellent visibility and single panel heights can be supplied of up to a maximum of 5.2 metres
- Fixed to posts using a full length clamp bar & available either bolt down, in ground or on wall
- LPCB LPS1175 SR1 Rated Option Also Available (See HiSec SR1 Datasheet)
- Secured By Design approved

Applications:

-  Civic & Public Sector
-  Health & Emergency Services
-  High Security
-  Industrial
-  Schools & Education
-  Transport & Infrastructure
-  Utilities

Description:

Zaun's fully customisable **HiSec Print DualFix** perimeter security fencing is designed to enable architects or specifiers to put their own mark on the fence line, these can be company logos, building names or other features which can be physically printed onto the panel. **HiSec Print DualFix** uses the popular '358' welded mesh configuration to repel thieves, trespassers and intruders. The close-mesh configuration ensures that the **HiSec Print DualFix** system is difficult to climb, highly secure and visually appealing.

Using our DualFix clamp bar system, **HiSec Print DualFix** can work to mitigate the risk of potential attack. For high security sites, the panel is flat against the post and the panel ends are held against the post by a front plate which makes levering the panels off very difficult. The **HiSec Print DualFix** system is available up to 5.2 metres high in a single panel.

Details:

Minimum height of 600mm to maximum height of 5.2 metres, HiSec Print DualFix Perimeter Fencing

Mesh:

HiSec Print mesh comprising of 12.7mm x 76.2mm mesh with 4mm vertical wires at 76.2mm centres with 4mm horizontal wires at 12.7mm centres.

Posts:

Various RHS post sizes dependent on height (see chart below for details), spaced at 2525mm centres

Post to panel fixing:

Panels fixed to posts with full height 80mm x 5mm clamp bar with twin bolt fixings at 400mm centres. The full height clamp bars create a safe finish with the mesh ends behind the clamp bar.

Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm RHS with Zaun HiSec mesh bolted onto the frame using the Zaun picture frame design, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm RHS, with Zaun HiSec mesh bolted onto the frame using the Zaun picture frame design, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Finish:

Materials are galvanised and polyester powder coated, with a bespoke print onto the mesh
